I am convinced that if our moms could have actually stayed awake through this video they would not have followed him. My favorite point is publishing all court cases. If your 3 year old daughter is raped do you want her name and yours published in public documents? Does it sound right to you to be able to look up VICTIMS court records? Men will do this to see if women are pure. Bill is choosing the options that help the men in court who have been harmed. Women have pushed hard for court watch as another option IMO

<http://www.youtube.com/watch?v=OmCZ12OnogU&feature=youtu.be> Juries....far as I know, all states offer a right to a jury in family court, you just have to pay for it. Judges already do state the basis for their decision...omg..."someONE to hold judges accountable?" WTF

Do some research on William Windsor of Atlanta, Georgia. He has filed so many lawsuits against people that he was banned from filing anymore. Even after he was banned, he continued to file motions within the court. Does anyone find it interesting that he has plans to sue countless people that filmed for his movie Lawless America? He is threatening to sue in the same system he is exposing as corrupt and that banned him. I find that highly entertaining. Something isn't right here. I fell for his act too. It's ok to admit when you've been had! The Bill Windsor and the Lawless America sheeple need to WAKE UP!

Your issues should be covered in there somewhere...lol ask your own attorney or do your own pro se research. Your issues are unique to you and you will need to figure out how to attack your specific issues. Attorneys usually have free consultations, I personally take all of those I can get.

AMPP has gotten into trouble for calling a boycott of the movie. I feel bad now. I was the one who called for the boycott in support of the women who had their videos cut, including my own. Apparently the Walk on with hope group did it too, not sure which one of us did it first but have not seen AMPP call for that. No sense blaming them for stuff I have done. I am not on their payroll.

Hi Bill, hope you're hanging in there. I think you should just wash your hands of this group of women, it is obvious that they love the drama (It's how they operate) If you recall some months ago I made mention of the fact that the Lawless site was beginning to look like a Parental rights site. I think that was the outcome these women wanted, as much notariety as possible, but it overshadowed the reason for the cause - corruption and injustice. Don't get me wrong, I have 6 kids, I am horrified by the things that they have been through, but that doesn't change the fact that we represent a wide variety of horrible injustices to our people. Not just custody injustices. I think it was their intent to get as much attention to their case as possible, but at the expense of everybody else's case. Unlike us who care about everyone's injustice and grief. Stand strong and know that we stand with you in your righteous cause (Hug) Deb J

Apparently he will allow the leaders in the groups to remain in his film. Another double dipper is Julia Fletcher, she is one of AMPP's biggest bloggers and they pay their bloggers extremely well. She also works for Lawless. I guess she is following both of their money trails and making a lot of money off the victims in both groups.

I find it rather hysterical that an old man named Bill Windsor is supposedly so busy making his movie that he finds so much time to post libel and slander about so many women. He is calling them "liars" yet can't post any proof that they have ever lied. He's calling them "hateful" yet all they did was speak the truth to him and address him for supporting abusers and pedophiles. He is posting fake emails from a fake PI that's supposedly on loryns case. He is claiming he has been friends with Loryns abusive father for 30 years. Anybody with a brain would then ask why did he bother getting involved with her then? A possible set up to smear and abuse a woman along with her own father? I find it disgusting the levels this man is going to try to deceive people and getting others to partake in his sin to libel, slander and abuse these women with him. While Bill is libeling away I know of a few people going to the FBI about him. He claims he will take a polygraph if someone else pays for it, here's an idea Bill how about you use all the money given to you that you scammed people for and put it towards your lie detector test. For starters, you can put the money I gave you towards it

\*Warning to all Survivors of Family Court Corruption\* If you filmed with Bill Windsor for Lawless America or gave him any of your information I would strongly advise to stay as far away from this controversy as possible. Those who have already been victimized by Bill Windsor and his scam are already speaking out and plans are in place to get justice for all of those he has and will harm in the future. If you question Bill in any way or do anything Bill doesn't like he can and will post your picture along with your address publicly for everyone to see and then threaten to go to your judge and harm your case. He is also doing this to people who simply "like" any fan page that he doesn't like. I have advised many to unlike my page so that Bill cannot have anything to hold against them. I do this because I do not want any one else to be put in harms way. This becomes a very serious issue when someone is going around posting addresses of domestic violence survivors and threatening to go to their judge to further abuse them. Bill has also done this to minors he has filmed. This is not a joke. Please be careful everyone. Sometimes playing the game is a way to protect yourself. Mary B,

I am happy you escaped when you did. Many of us have been watching quite a while, and pretty much agree it's really going to get worse for those still involved.

Keep your focus, and maybe start locally with your own group to make smaller changes and then work your way up to the bigger issues.

I have read every note you have published on Facebook. I can see and understand the pain you live with, and I really hope your health improves, and that you find the strength and peace you need.

You don't have to call in MaryB but if you want to make a statement directly to Bil, we know he listens and reads here too. Petunia would (copy from joeysalittlekid blog) Deb J
